Q-BA-MAZE

Q-BA-MAZE, Inc.

The Q-Ba-Maze bowled over our testers with its super cool design and wonderfully written and illustrated instructions. In no time both parents and children were making mazes into which they dropped their marbles over and over again. Parents told us that they loved watching their children working out creative patterns to build. The simple clarity of the instructions drew raves from all our testers. From a value perspective, the top-notch quality of the design really impressed as did the replay factor which was off the charts. Once this toy was opened it became a playtime magnet for kids of all ages.
